

## **Controlled F.O.R.C.E. talks police training at Mississippi Chiefs Conference**

*Posted: 23 May 2012*

Team members Tony Grano, Diana Juarez-Grano, Liz Ladford, and Amy Jendruczek will be representing Controlled F.O.R.C.E. at The Mississippi Association of Chiefs of Police 2012 Summer Educational Conference at the Imperial Palace in Biloxi on June 18-20. The team will be on hand to answer any questions about law enforcement use of force training, and will be demonstrating a variety of police training products.

According to the website [www.mschiefs.org](http://www.mschiefs.org), it is the mission of the Mississippi Association of Chiefs of Police (MACP) to be a leader in promoting professionalism among all law enforcement officers of the State of Mississippi by encouraging quality education through proactive training and educational programs. Controlled F.O.R.C.E. supports this mission, and strives to provide all law enforcement officers with the most effective use of force training programs available.

All attendees are encouraged to stop by the Controlled F.O.R.C.E. booth for detailed information about our training programs, including our arrest control program based on [Mechanical Advantage Control Holds](#) (M.A.C.H.), defensive tactics, critical incident small team tactics, and more. Our team will be able to discuss how the M.A.C.H. system can integrate with other training systems that your department might already be using, including pressure point based systems, rapid assault based systems, or ground fighting based systems.

Controlled F.O.R.C.E. training programs are utilized by police departments throughout Mississippi. Our standard departmental instructor certification course covering Level 1 Mechanical Advantage Subject Control and Level 2 Survival Force Reactionary Defense qualifies for 32 hours of in-service training requirement through Mississippi POST.

We will also be giving away M.A.C.H. 5 Batons to a limited number of visitors, so be sure to check in at our booth. The Controlled F.O.R.C.E. [M.A.C.H. 5 Baton](#) is a reliable training tool that will help defensive tactics instructors improve their students' baton tactics.

**Our team looks forward to seeing you at MACP 2012 Summer Educational Conference. If you would like any additional information about Controlled F.O.R.C.E., contact Liz Ladford by phone at 630-365-1700 or [liz@controlledforce.com](mailto:liz@controlledforce.com).**
